

Transwaste site on Gibson Lane, Melton

Two planning applications have been submitted associated with an Anaerobic Digester being built there. The Parish Council has numerous concerns about these and ask that you act now and make your views on these proposals.

Application 18/02749/CM is requesting permission to vary the operating hours to enable waste to be processed continually instead of the current 12 hours a day and less at weekends. **You can submit comments until 19 October.**

Application 18/02544/PLF is for the construction of up to twenty 1 megawatt generators in steel containers. **You can submit comments until 4th October.**

Please send your comments to the East Riding of Yorkshire Council quoting the application reference number.

Via ERYC website www.eastriding.gov.uk/newpublicaccess

You can also find detailed information about the applications.

Email to beverley.dc@eastriding.gov.uk

Write to the planning officer, Matthew Sunman, at ERYC, County Hall, Beverley, HU17 9BA.
