Dear Ms Hall-Miell

Surface Dressing of Roads Programme 2025

I would like to inform you that the Council are shortly to commence on the annual surface dressing programme for this year. The work involves the application of hot bitumen onto the existing road followed by a layer of stone chippings that are rolled in. Any remaining loose chippings will be removed by a road sweeper shortly after and any road markings will be re applied as soon as possible following the treatment.

The process is carried out to seal the carriageway to the ingress of water, this helps to reduce the formation of potholes and also to improve the skid resistant properties to the carriageway.

The work is reliant upon dry warm weather therefore I cannot give you firm start date for the works taking place on each individual site however the provisional commencement date for the whole programme in the East Riding of is 22nd April 2025 it is anticipated that the works in your Parish will commence on 9th June 2025

The Following road/s in your parish have been identified for treatment

Melton Bottom, Melton.

If you have any queries prior to the commencement of the work please do not hesitate to contact me on the above e mail address or telephone number. Any queries during or following the completion of the work should be directed to the highways customer care line on telephone number 01482 393939

Yours Sincerely

D Berry

David Berry

Paul Bellotti
